

Change Mayflower detail page price change

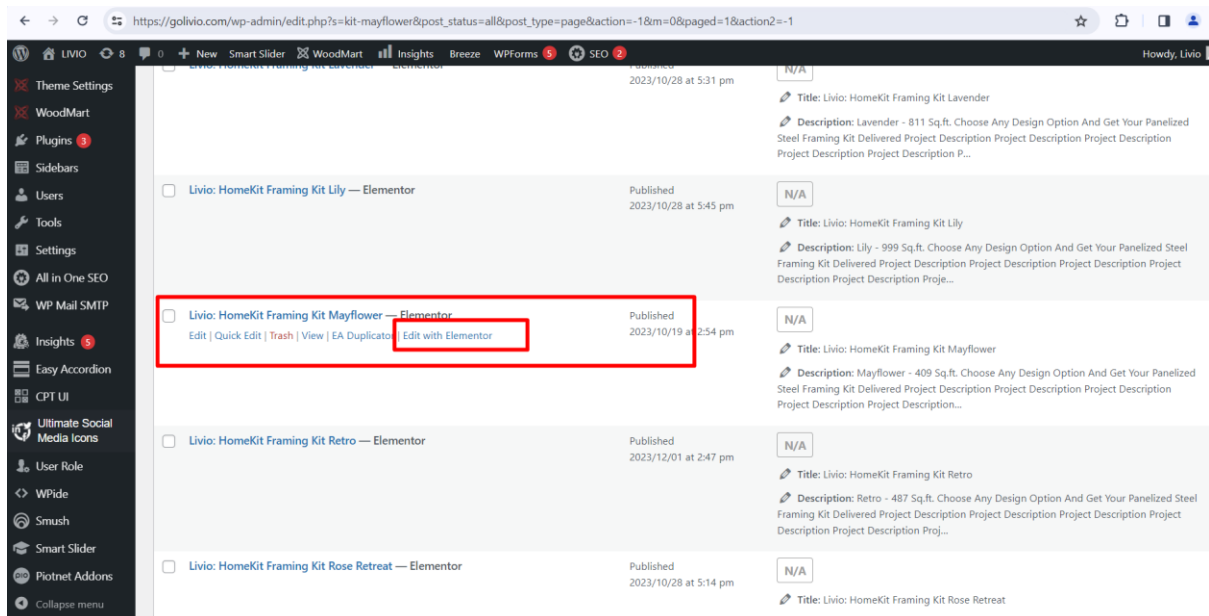

How to change this page price

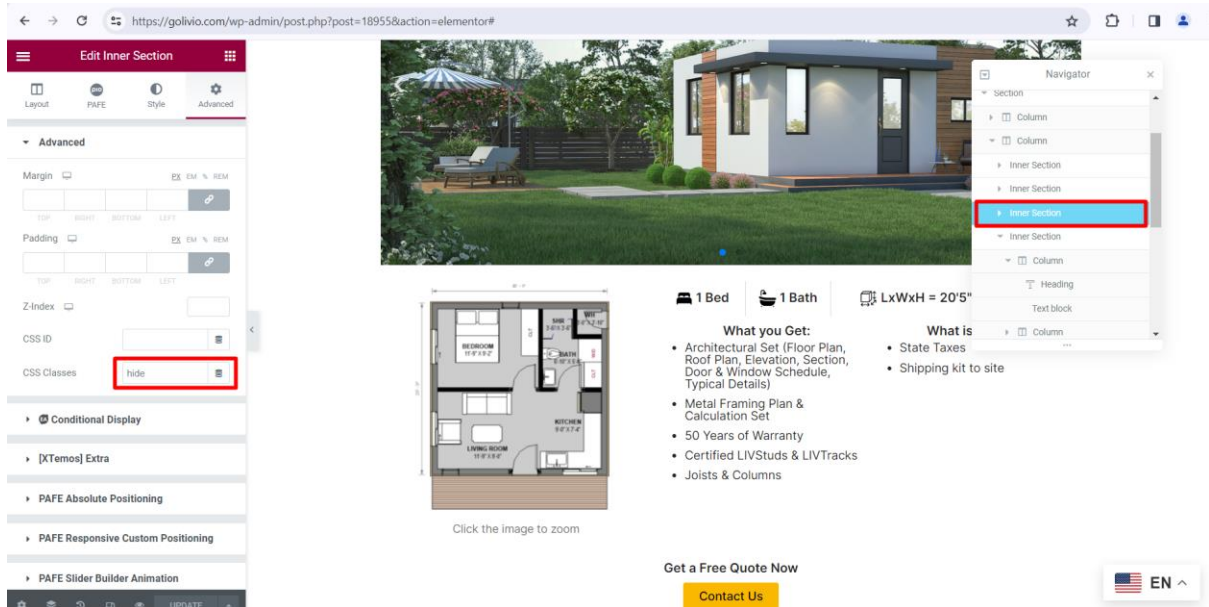

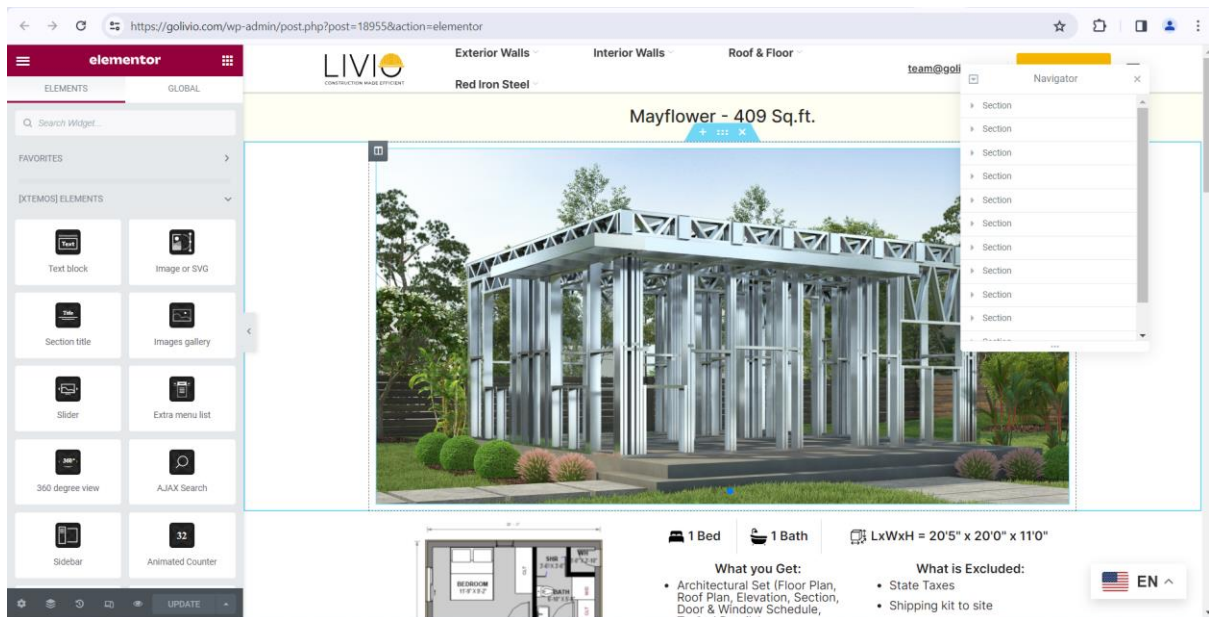

Change this page price

follow following steps

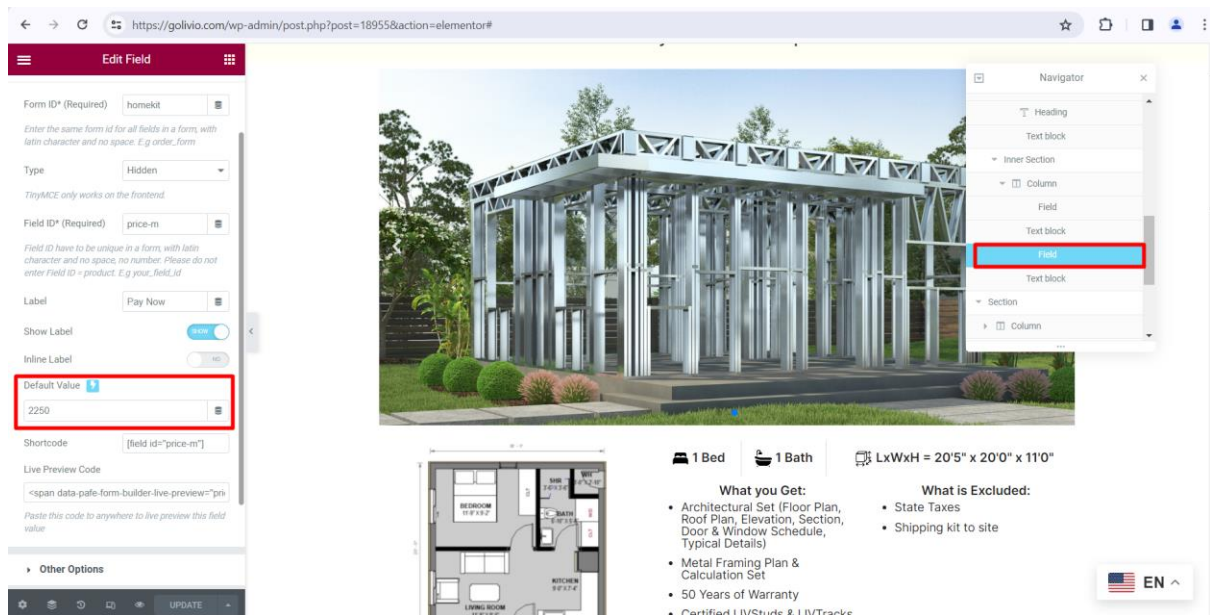

we can see page and click edit with elementor

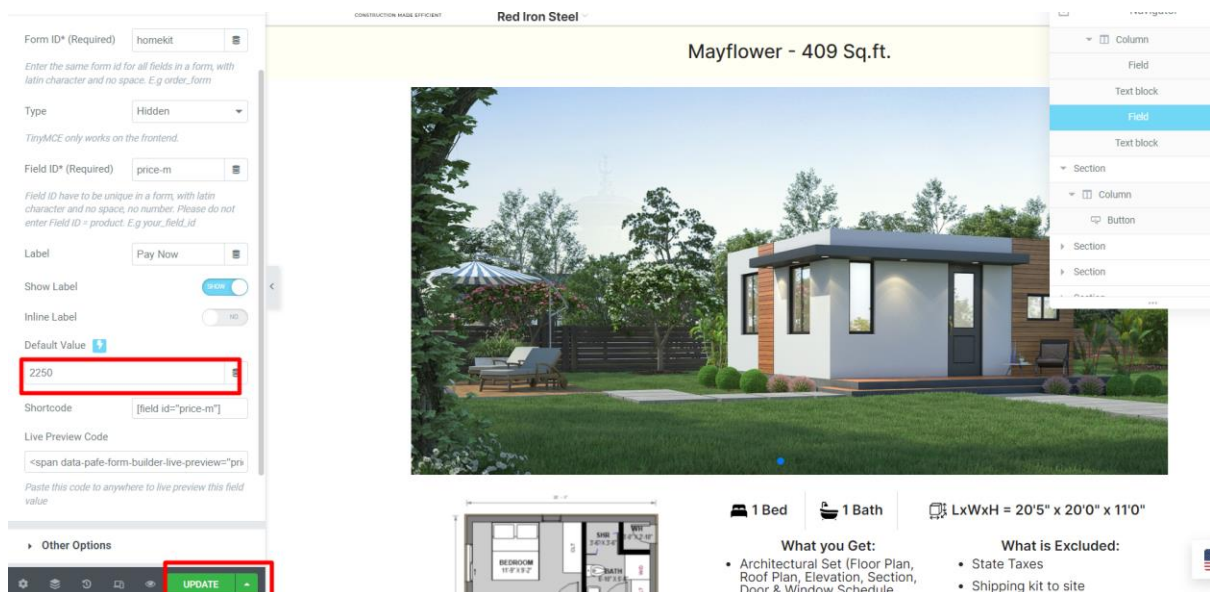

Some section hide I have added hide class If you want to show then remove hide class then you can see that section.

I have hide price section also

Field section click then show left side bar price you can change the price easily. Currently price section hide so you need to remove hide class in this section. I have already mentioned how to remove hide class.

After change price then click update button and check browser and open this page.
